OLD BUSINESS

Plan for lead line replacement report – Councilman Poyer explained all the paper work has been filled out and submitted to the State; in December/January we will do the next report and send that one in.

Basketball courts/park – Mayor Hutnick commented he spoke with the engineer today looking at the proposal and contract we have here [there is a price for lines for basketball and tennis] is factored into this quote for \$5,000 which is part of the over all cost. The engineer is trying to get a hold of the line painting company to see if there is a price difference to add pickleball courts inside the tennis courts. That is what we are waiting on; the engineer is having a difficult time getting in touch with the company.

Grant Writers – Councilman DeMeo explained everyone should have a copy of the grant writing proposal; we can put this on for the next meeting between now and then look at this if there are any questions reach out. We will advertise and see what kind of a response we get.

Hiring of Police Officers – Mayor Hutnick commented the Chief is here to discuss this. Mayor Hutnick asked Mr. McBriar about having this discussion in public.

Mr. McBriar commented if we keep the discussion generally about positions and not about individual employment.

Chief Gordon explained we put an ad out for an intergovernmental transfer for a qualified individual that would like to transfer here from a civil service town to a civil service town. Upon completion of time period that was allotted we received enquires; two of which were actual PTC to PTC equivalent and the other two were not equivalent. They were not PTC for police. The two enquiries received applications and are currently filling them out. They have several days to get back to us. At that point after field training for about a month they can go on the road as an officer. As far as the civil service list goes with the circumstances of the staffing needs that is why we went to the intergovernmental transfer process.

Mayor Hutnick asked if any council members had any questions.

Mayor Hutnick asked so the route we are taking is intergovernmental transfer. Chief Gordon commented right now yes.

Draft Ordinance Pond Badges -

Mr. McBriar commented there was an enquiry at the last meeting [regarding prohibiting hunting language]. Robin went through historic documents and it looks like that provision was changed at or about 2006. Mr. McBriar questioned if there was an action item to be followed on that or further discussion from the Council on that, amend it or change it or keep it as is. The remained of the ordinance he hasn't received any comments or questions or recommendation. It may be appropriate if there is no further discussion about the hunting component; to put the revise

ordinance on for the next meeting as it pertained to the badges. Mr. McBriar asked if there were any further comments or guidance from the Council on that.

Mr. McBriar commented Robin perhaps we can put an action item on for the next agenda to introduce an ordinance pertaining to that chapter of the code [6] and precede with the changes that have been reviewed. At a future date if there is any further discussion regarding hunting on public property we can revisit it at that time.

School Crossing Guard – Mayor Hutnick asked Chief if we received interest from anyone. Chief Gordon explained we haven't received any applicants that are interested and this is a problem in other towns as well finding crossing guards. Chief Gordon explained we did have one candidate that was interested but they stopped and watched one morning and then said they weren't interested.

DPW Personnel – Mayor Hutnick explained he and Councilwoman Ruitenberg have been going through the applications that have come in for assistant supervisor and labor. There doesn't seem to be anyone standing out at this time with regards to having real experience. We need to make a decision; do we keep looking but we are running out of time.

Councilman DeMeo asked if any have the applicants had their CDL or plowing experience.

Councilwoman Ruitenberg commented minimal.

Councilman DeMeo asked if the person with the CDL was applying for the assistant supervisor.

Mayor Hutnick explained some of the applicants put in applications for both jobs.

Councilman DeMeo asked if there were any recommendations for at least the laborer position so we can make sure we at least have a three-man crew for plowing.

Mayor Hutnick commented he is possibly looking from within; that can be taught and he doesn't need a CDL at this time.

There was a discussion on the different trucks at DPW, which trucks require a CDL to operate and we have a current employee working on getting a CDL,

Mayor Hutnick explained he reached out to the community for spare drivers and has two or three interested.

Councilwoman Ruitenberg asked can we post something for snow plow drivers? Maybe Facebook page and/or the website.

Councilwoman Cowdrick commented since it's a labor 1, why can't we offer it to our guy that is already here.

Councilwoman Ruitenberg commented labor would be an easier position to fill right now; we can interview candidates for that position.

Mayor Hutnick explained a quote from Hayden's Service Center for \$6,446.06 to get repairs for one of the trucks. Council has to decide about the repair of the GMC with 18,000 miles on it.

Councilman DeMeo made a motion to approve the repair. Seconded by Councilman Alvarez.

Upon Roll call Vote:

Yeas: Alvarez, Cowdrick, DeMeo, Poyer, Ruitenberg Nays: None Absent: Ciasullo Abstain None

Tree issues – Mayor Hutnick explained while the engineer was in town he asked him to go over to the property on Grant to determine whether or not that tree that was there was ours or the residents. Mayor Hutnick commented he believes that the tree is ours. So, we already have a quote; we already discussed having these trees taken down.

Storm Drain Cleaning – Mayor Hutnick commented we still are determining the storm drains; the county went through this week on the County Road.

There was a discussion on the storm drains in need of repair, cosmetic repairs done last year through a grant we had, damage was this year, the concern over a barrel over a storm drain in need or repair in the President Development with Halloween in a week and we need to cover that with more than a barrel.

Property Maintenance draft ordinance from Land Use Board – Mayor Hutnick asked if everyone had a chance to review this.

Mr. McBriar explained Robin had mention this ordinance and a companion ordinance that both have to go to land use so it makes sense to do that together. He recommends having both of those ordinances on for introduction at the next meeting. If there are any comments let Robin know before that day.

NEW BUSINESS

Easement Request – Mayor Hutnick commented at the last meeting a request was put in to met the engineer at the property to take a walk. The engineer picked one day he had available and two council people went.

Councilman DeMeo commented it was him who make this request; unfortunately, on the short notice he had he couldn't. Councilman DeMeo commented he did speak to Councilman Poyer before he went up there and he was kind enough to take pictures when he toured with Councilwoman Ruitenberg. He has photos of what he was concerned about and his concern was addressed.

Mr. McBriar commented the Borough is waiting on the memo outlining the recommendations from the engineer. There is positive movement forward addressing the issues that have been raised. We are getting closer to hopefully finalizing this in some way shape or form. He will connect with the engineer and work together with Robin on the final details and hopefully have something to present to you at the next meeting.

Mayor Hutnick commented on a positive note; this first time since he was on Council Ogdensburg was nominated by Sussex County Economic Development for a potential award for our Main Street and redevelopment plans for the Borough of Ogdensburg. He went to a luncheon last Friday where we were put up against all the big towns in the area; it is the first time Ogdensburg name has been on the board. There was a write up and presentation. Mayor Hutnick explained the process of how a municipality gets nominated. The nomination shows that the town is being noticed for our hard work.

PUBLIC SESSION

Councilman DeMeo moved, Councilwoman Cowdrick seconded motion to open the public session of the meeting. All were in favor.

Steven Goff, 3 Marianne Terr. commented on the property on Glen Brook. The owner has cut the lawn several times, the building is still open at the back.

Mayor Hutnick gave an update on the property; the owner was issued summons and has a court appearance. It is in the hands of the Courts.

Mr. Goff explained there are cats running in and out of the house.

Mayor Hutnick asked Mr. McBriar if the Borough can go on the property with it being a health hazard and risk being boarded up. Mr. McBriar explained he will look into this and any alternatives.

There being no further business from the public, Councilman DeMeo moved, Councilwoman Cowdrick seconded motion to close the public session of the meeting. All were in favor.

EXECUTIVE SESSION

There was no executive session.

PAYMENT OF VOUCHERS

Councilman DeMeo made a motion to review payment of vouchers and review departmental finance reports. Seconded by Councilwoman Cowdrick.

Upon Roll call Vote:
